

# American Institute of Chemical Engineers Sponsorship Package 2020-2021

# YEAR IN REVIEW

## **Overview**

The American Institute of Chemical Engineers (AIChE) at the University of Houston is a non-profit organization focused on providing a community and professional development opportunities for all future engineers. Through various enrichment opportunities we, as an organization, are able to assist in the development of our members' professional skill sets. These events and opportunities happen because of the donations from our sponsors so I want to thank all our past, current, and future sponsors for the commitment you have shown and continue to show to our organization. Below will be a summary of what we have been up to this past year and what we hope to achieve this upcoming year!

## **AIChE Professional Development**

Throughout this past year, we were able to provide our members with various professional development opportunities. From resume critiques, to mock interviews, to setting up Q&A sessions with industry professionals, we have provided them with opportunities to refine their professional skill set. Throughout the 2019 – 2020 academic school year, our organization hosted 7 information sessions along with 2 professional development events. Additionally, we had the opportunity to facilitate internship and full time recruiting for one company in the Houston area. Through our focus on professional development, we were able prepare our members to be equipped in their job search as well as be successful in the professional world.

# YEAR IN REVIEW

## Charter School Program at UH

The Charter School Program is an outreach initiative founded three years ago. It provides 3<sup>rd</sup> through 5<sup>th</sup> grade girls with opportunities to learn about different STEM concepts with topics ranging from understanding different molecular structures to the applications of computer programming. In the spring semester, AIChE collaborated extensively with Honors Engineering Program in order to expand the Charter School Program, now with a program membership of around 30 engineering students. In the Fall semester, AIChE took part in a K12 competition at the national conference held in Orlando, Florida. The purpose of the competition was to explore wonders of STEM and to increase interest in science and engineering in K12 students and to prepare future engineering students to creatively solve technical challenges in an ethical, sustainable, and socially conscious way. We presented our ideas on "Alternative Fuels" and our energy experiment was demonstrated to 100+ K12 students, their parents and educators, and members of the AIChE community.

\*\*At the 2019 AIChE regional conference, the Charter School Program was recognized for Engaging Young Women in STEM.

## Chem-E Car

The Chem-E Car competition provides our members with an opportunity to apply their technical knowledge and also a chance to gain lab experience. Before they begin developing a car for the competition, they have to go through different trainings and get various safety certifications in order to participate. The development and testing of their car, in preparation for the competition, allows them to apply and refine their problem-solving skills in a more technical setting. The Chem-E car team brought home 4th place at the 2019 Regional Chem-E Car Competition at Texas Tech University. The team now consists of 20 members who are working on developing a car for the 2021 Regional Competition.

## Our Goals for the 2020–2021 Year

In general, AIChE has made strides forward in an effort to raise the level of engagement for the organization as well as provide our members with valuable professional experiences and opportunities. The officer board for the 2020–2021 year have broader goal in hopes of making an impact not only within our organization but also within our community. Listed below are the goals we hope to achieve in the upcoming school year.

- Increase membership retention and engagement
- Expand the Charter School Program to include more organizations and more activities
- Increase participation in general volunteering activities
- Strengthen and expand our connections with alumni and industry professionals from a wider range of industries
- Grow our relationship with other organizations through joint meetings and collaborative events
- Expand on professional development opportunities currently available for our members
- Sustain virtual meetings and professional development opportunities if required
- Develop relationships with other AIChE chapters

The enclosed packet contains the details for the University of Houston Student Chapter of AIChE sponsorship and describes the different ways your company can contribute. If you are interested in sponsoring us for the 2020 AIChE National Student Conference or would like to host a general meeting or social event, please complete and return the attached registration form to the address/ email provided.

Please feel free to contact us at [uh.aiche@gmail.com](mailto:uh.aiche@gmail.com) with any further questions.

# Corporate Sponsorship Packages

AIChE at the University of Houston (2020–2021)

	RUBY	BRONZE	SILVER	GOLD	PLATINUM	DIAMOND
	\$250	\$500	\$1,000	\$2000	\$3,000	\$3,500+
Recognition as a sponsor	✓	✓	✓	✓	✓	✓
One General Meeting ( <b>either</b> fall or spring)		✓				
Two General Meetings ( <b>both</b> spring and fall)			✓	✓	✓	✓
Company Logo on T-shirt			✓	✓	✓	✓
One Social Event					✓	✓
Chem-E Car Sponsor				✓	✓	✓
Charter School Program Sponsor			✓	✓	✓	✓
Fund a \$500 Scholarship*						✓

All sponsorship level contributions include the cost of food and supplies for meetings and social events

\* Your company may sponsor additional scholarships (select preference in the registration form)

\*\* If there are any questions feel free to contact us at [uh.aiche@gmail.com](mailto:uh.aiche@gmail.com)

# Corporate Sponsorship Benefits

AIChE at the University of Houston (2020-2021)

*Please refer to the table on the previous page to view benefits your company will receive for your sponsorship level.*

## **Recognition as a Sponsor**

The organization's website functions as a place where all current and potential student members access pertinent information such as event dates, national and regional conference information, membership information, Chem-E-Car details, etc. Your company name/logo is recognized at general meetings and posted on the organization's website, where it will also serve as a link to your company's website.

## **General Meetings with AIChE UH\***

Your company has the guaranteed opportunity to send representatives to a general meeting. At the meetings, your representatives can talk to students about your company, his or her personal experiences, what your company has to offer for chemical engineering graduates, future co-op/internship opportunities, or any industry or educational topic. Presentations can be in the form of PowerPoint, Q&A session, or combination of both.

## **Company Logo on T-shirt**

Your company name/logo will be printed on the organization's t-shirt, where your corporate sponsorship will be recognized and acknowledged by members and on-looking bystanders.

## **Chem-E-Car and Charter School Program Sponsorship**

Your company will be recognized as a Chem-E-Car and/or Charter School Program sponsor at AIChE meetings. Your company logo will be displayed on our Chem-E-Car when we compete at the Regional Competition and/or on the PowerPoint and activities slides used during AIChE Charter School events.

## **Social Event with AIChE**

Your company has the opportunity to sponsor a social event with UH AIChE. Social Events offer a unique experience in comparison to a general meeting because representatives will have the chance to talk to more students on a one-on-one basis in a more relaxed social setting with food and beverages.

## **Fund a Scholarship**

Your company has the opportunity to fund scholarships in their name to our top AIChE members. Your company scholarship will be announced on all our social media platforms, on the organization's website, and during our meetings.

\* Meetings are on a first come, first serve scheduling basis.

\*\* If there are any questions feel free to contact us at [uh.aiche@gmail.com](mailto:uh.aiche@gmail.com)

# Corporate Sponsorship Benefits

AChE at the University of Houston (2020-2021)

## COVID-19 Updates

As the COVID-19 situation continues to evolve, the possibility of having direct interactions in the beginning of the school year is uncertain. In case of such an event, we will be organizing and coordinating virtual meetings and events to ensure valuable experiences for all our members and to satisfy the promises to our sponsors.

\*\* If there are any questions feel free to contact us at [uh.aiche@gmail.com](mailto:uh.aiche@gmail.com)

# Corporate Sponsor Registration Form

AICHe at the University of Houston (2020-2021)

## Company Contact Information

Company Name:

Address:

Contact Person (Last Name, First Name, Title):
